disk⟨a⟩shur DT™
Quick Start Guide

Your diskAshur DT is preformatted in NTFS for Windows® and is ready for use. For the Mac OS please refer to the directions on the reverse to reformat your drive to a compatible format.To access the diskAshur DT connect the drive to a power outlet via the AC Adapter and a USB port using the USB 3.0 cable (this cable is also compatible with USB 2.0).
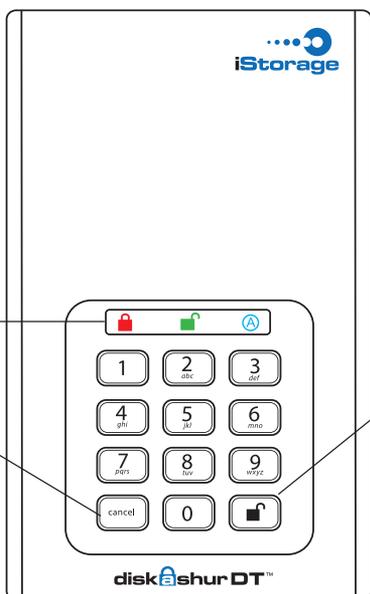

Once connected turn the power switch on the back of the drive to the ON position, the LOCK indicator light on the top of the unit should show RED. Enter the default PIN number of **123456** and press ⬛. The UNLOCK indicator light will turn GREEN indicating the drive is unlocked and can be accessed.

Changing the ADMIN PIN number to your own unique PIN number

You are the "administrator" of this drive. The first thing you will want to do is change the Administrator PIN number from the default 123456 to a unique, secure PIN number that you will remember.

To change the Admin PIN number follow the instructions below:

1. To enter Admin Mode, connect the drive to a USB port. The UNLOCK indicator light will be RED.
2. Next, press and hold 0 + ⬛ for 5 seconds until the UNLOCK indicator light flashes RED.
3. Enter the Admin PIN number (default is 123456) and press ⬛. The ADMIN (A) indicator light will turn BLUE indicating you are in Admin Mode.
4. While in Admin Mode, press and hold 9 + ⬛ until the ADMIN (A) light flashes BLUE.
5. Enter the new PIN number (minimum 6 digits) and press ⬛. The UNLOCK indicator light will flash GREEN 3 times if successful.
6. Re-enter the new PIN number and press ⬛. The UNLOCK indicator light will stay solid GREEN for 2 seconds then the ADMIN (A) indicator light will become solid BLUE indicating you have successfully changed the Admin PIN.
7. To exit Admin Mode and begin using your diskAshur drive, press the CANCEL button until the LOCK indicator light turns RED. Now enter your new PIN number and press   . ⬛

Remember to save your password in a safe place. If lost or forgotten, there is no way to access the drive.

If you are having difficulty please refer to the complete user's manual which is loaded on your diskAshur drive and is also available at IStorage's website at: **www.istorage-uk.com/support**

diskAshur DT Setup for Mac OS ®

Your diskAshur DT is preformatted in NTFS for Windows®. To reformat the drive to a Mac compatible format please read the below.

Once the drive is unlocked, open **Disk Utility** from **Applications/Utilities/ Disk Utilities.**

To format the diskAshur DT:

1. Select the diskAshur DT from the list of drives and volumes. Each drive in the list will display its capacity, manufacturer, and product name, such as 232.9 iStorage diskAshur.
2. Click the 'Erase' tab.
3. Enter a name for the drive. The default name is Untitled. The drive's name will eventually appear on the desktop.
4. Select a volume format to use. The Volume Format dropdown menu lists the available drive formats that the Mac supports. The recommended format type is 'Mac OS Extended (Journaled).'
5. Click the 'Erase' button. Disk Utility will unmount the volume from the desktop, erase it, and then remount it on the desktop.

Your diskAshur DT is now formatted and ready to use. To change your ADMIN PIN please refer to the directions on the previous page.
